

## Product Features and Technical Specification

**Item No.:** N-F2800

**Unit Price:** \$169.00/pc (1-4pcs)

**Item Name:** Mini Animation Laser Light Party Light Disco Light

Power supply: AC100-240V 50 / 60Hz

Power: 60W

Laser power: 230mw-1200mw

Laser wavelength: green light: 532nm or 515nm red light: 650nm or 638nm blue light: 450nm

Laser type: imported semiconductor solid-state laser

Beam diameter / divergence angle: <5mm and <2.0mrad

Laser color: Seven colors

Scanning system: 15-20kpps galvanometer, scanning angle  $\pm 20^\circ$

Modulation signal: TTL modulation / analog modulation

Operation interface: LCD display button operation

Laser pattern: 15 groups of pattern library, 1900 patterns

Control mode: DMX512 signal control (6 / 34CH) / self-propelled / voice control / master / slave / APP and remote control (optional)

Control interface: international universal DXM512 interface, RJ45 interface, can be connected to tiger, pearl, MA and other consoles

DMX function: pattern break pen, rotate, move, zoom, fade, change color, change size, etc.

Cooling system: forced cooling by fan

Working environment: indoor (10-40) degrees, such as outdoor use need to add waterproof equipment

Suitable places: KTV private rooms, bar, music bar, small bar, family PARTY, etc.

Net / Gross weight: 1.95 / 2.35KG

Lamp size (excluding handle): L200 \* W152 \* H110mm

Packaging material: carton

Small box size: L275 \* W210 \* H185nm

Big box size: L575 \* W440 \* H395nm 8 pieces

Product features: exquisite appearance, easy installation, vivid colors, rich pattern effect and full beam sense, is a cost-effective Mini Party Disco Laser light, suitable for Club, Disco, DJ, party, KTV, Music Bar, Mini bars, wedding event, and other small event etc.
